Summary

Senior Product Designer with 5+ years of experience designing end-to-end digital products across **OTT and streaming, SaaS, enterprise communication, e-learning, e-commerce, and marketing platforms.** Experienced in transforming complex, multi-role workflows into clear and scalable experiences across Web, Mobile, Smart TV, and STB, as well as operations tools, CMS platforms, and AI-powered products. Skilled in building and scaling design systems and partnering closely with product, engineering, and QA teams to deliver consistent, accessible, and user-focused digital experiences.

Core Strengths

UX & Product Design	Product Design · Interaction Design · Information Architecture · User Flows · Wireframing · Prototyping · Complex Workflow Simplification · Multi-role Platforms
Design Systems & UI	Design Systems · Component Libraries · Design Tokens · Variables · Theming · Multi-platform UI · Responsive Design · Accessibility (WCAG)
Research & Validation	User Research · Usability Testing · A/B Testing · Personas · Quantitative & Qualitative Research
Domains	OTT & Streaming · SaaS · Enterprise Communication · E-learning · E-commerce · CMS & Admin Tools · AI-powered Products · Marketing Websites
Tools	Figma · FigJam · Framer · Adobe XD · Photoshop · Google Gemini · Midjourney · Firefly · Sketch · WordPress · Jira · Confluence · CleverTap · Firebase · HTML · CSS

Experience

Senior Product Designer
Quickplay Media, Chennai, India
July 2024 - October 2026

- ***Key projects:*** SonyLIV · Quickplay AI Studio · CMS · Telekom Malaysia Unifi TV · Cignal · PLive · TVNZ
- Drive end-to-end product design for OTT platforms serving major broadcasters and telcos, across **Web, Mobile, Smart TV and STB**, from discovery and flows through to high-fidelity UI and developer handoff.
- Led UI pattern standardization across **3 themes and 200+ live channel apps**, improving brand consistency and streamlining the onboarding of new channels.
- Scaled the OTT design system across **5 platforms**, accelerating rollout timelines and significantly reducing cross-platform inconsistencies.
- Designed a **Live Ops Management system** for managing 200+ live channels, improving operational control, reducing incident response time and supporting stream stability in high-traffic environments.
- Conceptualized and delivered an **AI-powered UV validation platform** that automates lifting checks, mismatch detection, Jira ticket creation and report generation, replacing manual validation with scalable automated workflows.
- Designed CMS and operations-facing tooling for content and support teams; partnered with engineering and QA to launch **18+ resource validation workflows**, improving release readiness and reducing deployment delays.
- Improved ML-driven content discovery by refining highlight visibility and interaction design, driving stronger engagement and higher conversion intent.
- Aligned roadmap priorities with product, engineering and QA to accelerate feature delivery.

UI UX Designer
KPOST Software Pvt Ltd, Chennai, India
September 2022 - July 2024

- ***Key projects:*** Communication Platform (Mail · Chat · Calls) · Kampus E-learning Platform · Project Management Platform
- Led end-to-end UX for a large-scale **enterprise communication SaaS** unifying chat, mail, calls, scheduling, directory, cloud storage and commerce into a single ecosystem, improving cross-module usability and workflow continuity.
- Designed **Kampus**, a role-based e-learning platform for students, teachers and administrators, bringing dashboards, live classes, attendance, assignments and exams into one academic ecosystem.
- Designed a **project management platform**, defining user flows and interfaces for planning, tracking and team collaboration.
- Built academic workflows and performance-tracking systems that improved transparency, reduced process complexity and streamlined daily school operations.
- Established reusable UI components and structured design patterns, keeping communication, productivity and transactional experiences consistent across products.

UI UX Designer
Think Digital Wordings Pvt Ltd, Chennai, India
July 2021 - September 2022

- ***Key projects:*** KUN BMW · ST Courier · plus 40+ corporate, e-commerce and marketing sites
- Designed and delivered 40+ marketing and business websites on WordPress, leading wireframing, UX flows and responsive UI across automotive, logistics, e-commerce and corporate clients.
- Designed flagship sites including the KUN BMW and ST Courier websites, translating business requirements into conversion-focused, user-centered experiences.
- Produced web and mobile interface designs in Figma and Adobe XD, and created brand assets (logos, icons, illustrations) for visual consistency across websites and campaigns.
- Built customized WordPress themes with cross-browser compatibility and responsive optimization, working directly with clients and internal teams.
